APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the 0.1 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

The total combined amount of water granted under this permit and Permit 28566 is limited to what the spring covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 28566, the total combined amount of appropriation granted in said certificates shall not exceed what the spring covered under the two permits is capable of producing.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second, but not to exceed 23.5 million gallons annually.

Actual construction work shall begin on or before October 28, 1981

Proof of commencement of work shall be filed before November 28, 1981

Work must be prosecuted with reasonable diligence and be completed on or before October 28, 1982

Proof of completion of work shall be filed before November 28, 1982

Application of water to beneficial use shall be made on or before October 28, 1984

Proof of the application of water to beneficial use shall be filed on or before November 28, 1984
